Other Authors (Name & Family name) — if more separate with commas
Organisation
Address
ZIP Code, City, Country
author.two@email.com, author.three@email.com

ABSTRACT

This file provides a template for writing papers for the conference. The conference proceedings will be published in an electronic format. The manuscript in MS Word file or LaTeX shall be written in compliance with these instructions.

1 INTRODUCTION

It is expected that the authors will submit carefully written and proofread material. Grammatical and spelling errors, as well as language usage problems, are not acceptable. The authors should limit their papers to 8 pages, presenting their results as concisely as possible. The papers must be written in the English language.

2 PAPER FORMAT

The uniform outlook will help the reader to follow the proceedings. This can be obtained most easily if the authors use this template file to construct their manuscripts. Please note the following details: this template is an A4 format with 25 mm margins on the left, right, top and bottom.

All text paragraphs should be single spaced; with the first line indented for 10 mm. The position and style of headings and subheadings should follow this example. No spaces should be placed between paragraphs or headings and paragraphs. All format styles are predefined (all have names starting with S, following a two digit number) and are available in the Styles menu.

2.1 Header, Footer, Page Numbering

If this template is used when writing the manuscript, the headers and footers will be set automatically. The authors are only asked to replace the "NNN" with their paper number on the footer of the first page and on the header of other pages in order to set a unique page number in the Proceedings. The paper number is written on your letter of acceptance or can be obtained from the web site of the conference www.djs.si/nene2022 in the Conference Program section.

2.2 Fonts

The papers should use 12-point Times New Roman or equivalent. Times, Symbol or Arial fonts can be used in figures. It is recommended that the text in figures is not smaller than 10-point font size. The authors are discouraged from using other fonts.

2.3 Figures and Tables

The figure captions and table headings should be sufficient to explain the figure or table without needing to refer to the text. Figures and tables not cited in the text should not be presented.

Table 1: Example table

Important date	
August 31st, 2022	Full length papers
November 15th, 2022	Proceedings

The tables and figures should be placed close after the paragraph of their first mentioning. All figures and tables shall be numbered with Arabic numerals. The table headings shall be centred above the tables. The figure captions should be centred below the figures.

Figure 1: Example figure — Bernardin

Please use "In Line with Text" text wrapping for figures — click the image, then click the Picture Tools → Formatting tab. In the "Wrap Text" menu choose "In line with Text".

2.4 Equations

Each equation should be presented on a separate line with a blank space above and below or preferable in a table. The equations should be numbered consecutively at the outer right margin, as shown in Eq. (1) below.

$$\frac{\partial \mathbf{v}}{\partial t} + (\mathbf{v} \cdot \nabla)\,\mathbf{v} = -\frac{\nabla p}{\rho} + \mu \nabla^2 \mathbf{v} + \mathbf{f} \tag{1}$$

You can insert the equations by using "Insert → Equation (the arrow) → Numbered equation" feature. Equations can be cross-referenced by opening the Cross-reference window by clicking "Insert → Cross-reference" and then choosing "Reference type: Equation" and "Insert reference to: Entire caption".

2.5 References

Reference numbers in the text should be designated by square brackets, e.g., [1]. The references should be listed in the same order as cited in the text. Some examples of how to list references are given in the Section References.

3 SUBMITTING THE MANUSCRIPT

The LaTeX manuscripts should be submitted as a PDF file electronically through the conference website (www.djs.si/nene2022) before August 31st, 2022. The same account as used for the submittal of the abstract should be used for the submission of the paper. Please login and upload the paper in the My Abstracts and Papers tab.

ACKNOWLEDGMENTS

The organizer gratefully acknowledges the work done by all Organizing Committees of the International Conferences Nuclear Energy in New Europe who prepared the first and the improved versions of the template.
